30 November 2011

The below motion has been implemented immediately due to safety and includes all divisions.

All Divisions

4cylinder page 42 section 26

Juniors page 53 section 32

Street Stock page 27 section 27 (current book not draft)

Productions page 35 section 29 (current book not draft)

Modifieds page 40 section 29

Supers page 45 section 43

An earth strap be fitted from the plastic fuel cell filler neck to rollcage or body as an earth, to prevent buildup of static electricity.

Reason: SAFETY: Static electricity can buildup and cause an explosion when attempting to fill the fuel tank. One competitor has been burnt from this type of accident already.

Kind regards

Beckie Jones
National Secretary
